

**PLC
+ HMI**
ALL IN ONE™

**"Rapid programming and a terrific feature set.
Unitronics delivered more capability for less money."**

Matthew Cronin, MSI Tec, Inc.

VISION 700™

Advanced PLC + integrated HMI

Supports up to 1000 I/Os

Options for high-speed, temperature and weight measurement

Variety of communication options: Ethernet, RS232/RS485, CANbus and Profibus

Software & support included

Unitronics is a pioneer in the manufacture and design of PLCs with integrated HMI and on-board I/Os - rugged PLC product lines that meet a diverse range of requirements. Program your entire application in a single, intuitive software environment, and benefit from best-of-breed technical support, both provided at no extra cost.
